

## Next Gen Home Dialysis

- **One-click Therapy**  
Prompts and directions lead you step-by-step  
Accessible in a 10 in. touch-screen for better visibility
- **Leading-edge Technology**  
A significant number of patents have been authorized  
Advanced diaphragm pump technology  
Ultrafiltration monitoring and warning processing technology
- **Various sensing monitoring techniques**  
Dual measurement system  
Accurate temperature control system
- **Web-based Connectivity Solutions**  
Remote data transmission management  
Connect the patient and doctor at a touch

## Integrated Platform for Home Dialysis

## Automated PD Set with Cassette

- One single connection for the entire treatment process
- Save PD solution, improve dialysis efficiency
- Compatible to all dialysis solution in the market
